

# Prefoam Plus

The disinfectant foam before milking with reinforced cleaning power

## MILKING

1 Before Auant/Pre

2 During

3 After

4 In between

## Advantages of PREFOAM PLUS

- Cleaning power
- Cosmetic power
- Powerful antibacterial disinfectant: LSA®

### • Teat protection

PREFOAM PLUS has emollient, humectant and softener effect for better health of the teat and adequate preparation of the milking.

### • Teat disinfection

PREFOAM PLUS contains an active and disinfecting complex very powerful: LSA®

LSA ® is based on a hydroxy acids complex.

LSA ® is effective in **30 seconds** on mastitis causing germs: (Escherichia coli, Streptococcus uberis, Streptococcus agalactiae, Staphylococcus aureus (EN 1656)).

### • Direction for use

1- Make foam

2- Apply, the foam, leave on the teat 30s

3- Wipe the teats with a paper towel or a clean cloth

### • Main components of PREFOAM PLUS

LSA® (hydroxy acids complex), moisturizers, emollients, softeners, mild detergents.

Active substance(s): L - (+) - lactic acid + 2% salicylic acid, 0.099% (expressed as w/w)

Disinfectants are regulatory biocides. They have guarantees of efficiency and protection of human, animals and the environment.  
Use biocides safely. Before use read the label and product information.
